

Yukon Organic is a fertilizer-based natural organic Ice Melter that performs well at much colder temperatures than other organic Ice Melters.

- With Potassium Chloride and Calcium Chloride (both are fertilizers)
- Yukon Organic is effective to -31°C (-24°F)
- **INDIGO™** marker dye shows clearly where the product is applied
- Comparable Products: *Groundworks and Mountain Organic (Xynyth)*: Yukon Organic is more vegetation friendly, and has higher melting performance from Calcium Chloride.
